English Summer Camp

The aim of the Montessori Village Sarrià **Summer Camp** is to awaken creativity, curiosity and a desire to learn with workshops and activities in an international environment using English as the common language.

Why choosing our Summer Camp?

- We use **English as the vehicular language**, which is the best way to learn a language: in a natural way.
- We follow the **Montessori Philosophy**, which respects the individual development of each child.
- Our classes have **mixed age groups**, which is very beneficial because it promotes peer learning rather than competition.
- It is a great opportunity for them to learn to **work as a team**, through their participation in multiple projects such as working in the garden, as well as cooperative activities: baking bread, group art projects, etc.
- We promote autonomy, which helps in making **children feel free**.
- With **10 children per educator**, we guarantee the welfare and safety of our participants by improving the legal ratio of the number of educators to the number of participants required by law.
- Our **catering** is **healthy**, rich in fruit and vegetables, without processed food or added sugars.
- We look after our children and families, giving them **feedback on a daily basis**. There are many families to whom we offer immediate communication about how their children are in the camp and we adapt to the particular needs of families as much as possible.

Who is for?

For children aged 18 months to 6 years who want to have fun and learn during the Summer in a respectful environment.

We know each age requires different attention and work methodology, so we separate children in 2 age groups: 18 months to 3 years and 3 to 6 years.

Activities & Workshops

Montessori practical life activities: food preparation, care of the environment, self care, flower arrangement, etc

Sensory activities and experiments: activities related to colors, textures, flavors, dimensions, etc.
